

*A Message from the Mayor....*

*This is an exciting time for the Town of Louisa – we are getting ready to go forward with the pedestrian safety improvements project. During the September, 2011 council meeting the council voted unanimously to begin the final design work for the Courthouse Square project and to design the Lyde Avenue sidewalk taking into consideration citizens concerns regarding*

*the path of the sidewalk.*

*While this project moves ahead, please rest assured that we are working daily on making sure that the construction impacts will be minimal. The public will have several more opportunities to provide input and comments regarding the projects. I am dedicated to making this project the best it can be and to have as little negative impacts on our citizens, business owners and visitors as possible. I know the staff and design team are doing their absolute best to make sure the project is a success from all points of view.*

*This web page will be updated on a regular basis, this page; along with press releases, public meetings, and other outreach activities will make sure the information provided is correct, consistent and available for all of our citizens.*

*Please feel to call me if you have any questions or concerns.*

*Jim*
