

Press Release
Town of Louisa, Virginia
PO Box 531
212 Fredericksburg Ave
Louisa, VA 23093

540 967 1400

For Immediate Release

The Louisa Town Council has authorized the town staff to move forward with the FY 2011-2012 TEA -21 Downtown Improvements Project. This project is the third in a series of projects jointly funded by the Virginia Department of Transportation and the Town of Louisa. The projects focus on increasing pedestrian safety by building new or rehabilitating deteriorated sidewalks, installing traffic calming devices, enhancing crosswalks, and posting appropriate signage throughout the town.

This phase of the project will focus on finishing the design work for the Main Street and Courthouse Square phase of the project and will design and build a sidewalk along Lyde St that will serve up to 150 residential units when completed.

Funding had been authorized in the FY 2011-2012 budget, but the decision to move forward was postponed until the Town Council could have a facilitated work session to discuss the projects in depth and weigh the costs vs benefits of not only this phase of the project, but future phases as well.
