

Updike Industries, Inc.

Dear Town of Louisa Residents,

The Town of Louisa has signed an agreement to have Updike Industries Inc. Supply recycling and waste removal services for the Town of Louisa residents. Updike industries is a family owned and operated local business which has provided recycling and solid waste collection services in Central Virginia for over 45 years. Each residence will be provided a 95 gallon trash container. In the event that this container is too large, we will make available a 45 gallon or a 64 Gallon container in its place at no additional cost to the resident. We ask that all residents use the new company issued trash cans for waste pickup. Updike will continue to keep recycling collection schedule on the 2nd and 4th Wednesday of each month. Residents can use current waste cans for recycling if they choose. Due to the larger cans and cost savings for the town, waste collection will be once per week on Mondays. In the event that a normally scheduled service day falling on a holiday, waste services will resume the day following the scheduled holiday. All residents should receive their new waste cart the last week of June. Service will start July 5th due to the July 4th Holliday on Monday. Updike Industries' web site www.updikeindustries.com will be updated to provide residents with any schedule updates including Holiday Schedule updates or weather issues causing changes to the collection services. Please feel free to contact us at dispatch@updikeindustries.com for any and all questions provided with your service.

Yours Sincerely

Updike Industries Inc
